

I am going to hold the FCC greatly responsible for allowing Sinclair broadcasting the freedom to use the nation's airwaves for a free and partisan attack against Senator John F. Kerry and the Democratic Party. I find it quite unfortunate that the televising of the names and photographs of fallen members of our military were unsuitable for the viewers of our nation, yet a clearly anti-Democratic, anti-Kerry so-called documentary has made its way to production for the Sinclair network.

On behalf of what is right and just, I'd like to thank them for giving many Americans a reason to never support them or any of their affiliates. And, thank them for selling-out the American family.
